at first sight

Una forma estremecedora de mostrar la realidad,
una realidad que no necesita traducción.

Es un lenguaje universal que podría llegar a la
extinción.

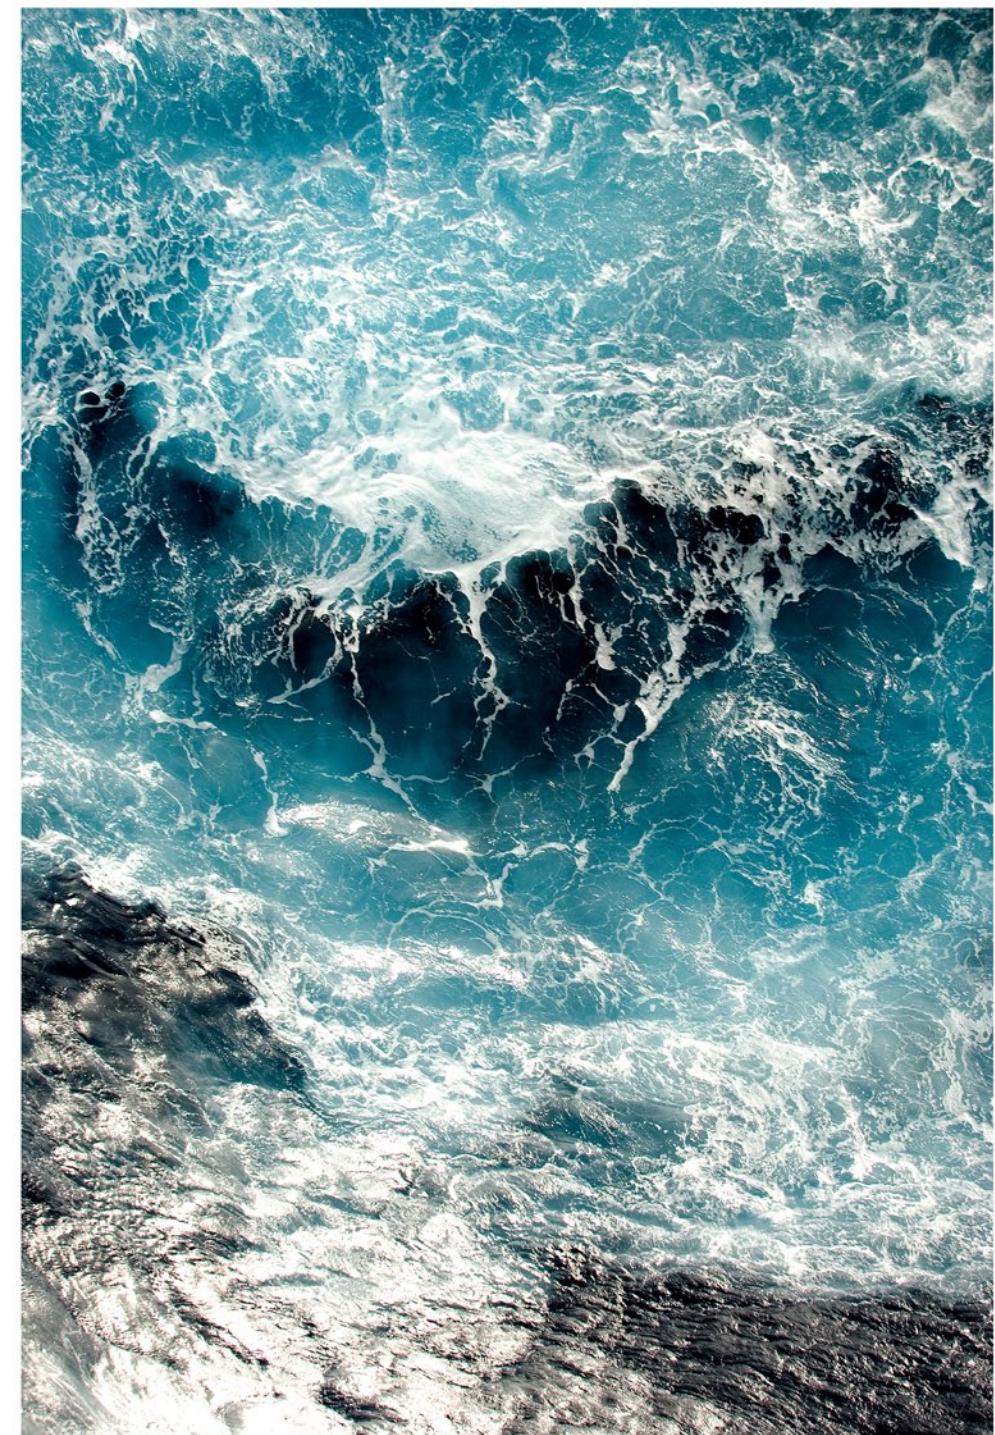

Este es el misterio de la naturaleza la cual la
presento sin identidad, solamente indico la
presencia de la hora capturada insistiendo en
crear conciencia respecto a la importancia del
tiempo.

*A scary path to portray reality; this is a reality that
needs no translation.*

*It is a universal language that could reach
extinction.*

*This is the mystery of nature, which I present
devoid of identity.*

*I only indicate the presence of the captured
instant, insisting on creating consciousness
regarding the importance of time.*
